## Anti-aging Line

We all desire to look younger and have a pleasing appearance but our skin changes with age. It becomes thinner, loses fat, and no longer looks as plump and smooth as it once did.

One of the skin aging culprits is decreasing the body's ability to make natural proteins named collagen that needs to keep skin firm. With less collagen, the skin loses its resilience and elasticity. By the way, the skin's ability to retain moisture will be lost as skin gets older. As a result, the skin lost its firmness, spring, and moisture. So, fine lines and wrinkles, dryness and age spots can develop.

To keep the skin free from wrinkles and age signs, there is a need to adapt a good skincare regimen. In this regard, EIG Canada presents you **O2B Anti-aging products** to include in your beauty and skin care regimen.

**EIG Canada Anti-aging line** is consisted of **7** unique Anti-aging products under the brand name of O2B. These innovative unique products are formulated using novel patented ingredients to present the maximum anti-aging effects on aging signs.

- More than 30% improvement in skin's resistance after two weeks of treatment
- Less age spot's appearance as a result of significant skin whitening activity

## O2B Anti-aging Line Usage Guideline

**O2B Anti-aging Milk Cleanser** is **STEP 1** in your daily Anti-aging regimen.

**Usage:** Use **twice daily**, morning and night. Lightly lather in hands and apply to damp face and neck, massaging with light, upward strokes for at least 30 seconds, concentrate on any areas of excessive dryness and impurities. Rinse with warm water. Avoiding the eye area. Reduce to one use per day if any sensitivity develops. Follow with Toner and prescribed moisturizer.

**O2B Anti-aging Toner** is **STEP 2** in your daily Anti-aging regimen.

**Usage:** Use **twice daily**, morning and night. After cleansing, apply small amount (dime size) with cotton ball or pad. Allow to dry. Do not rinse off. Follow with prescribed moisturizer.

**O2B Anti-aging Serum** is **STEP 3** in your daily Anti-aging regimen.

**Usage:** Use **twice daily**, morning and night. Reduce to one use per day if any sensitivity develops. After cleansing and toning, squeeze a small dose (one-two pumps) onto fingertips and massage gently over face and throat. Follow with O2B Anti-aging face cream. Can also mix with face cream then apply to face.

**O2B Anti-aging Face Cream** is **STEP 4** in your daily Anti-aging regimen.

**Usage:** Use **twice daily**, morning and night. After applying serum, apply a small amount (pea size) of the cream to face with light, upward strokes. Wait for cream to absorb before applying additional products.

**O2B Anti-aging Exfoliant** should be included in your Anti-aging **monthly** regimen.

**Usage:** Use **twice a month**. After cleansing, apply to damp skin and leave mask on for 10-15 minutes, then rinse off. Avoid contact to the eye area. A more intense result can be achieved by using directly on dry skin. Not recommended for users of medically-prescribed exfoliation products.

**O2B Anti-aging Eye Cream** is **STEP 2** in your eye Anti-aging regimen.

(STEP 1 is using O2B Anti-aging Milk Cleanser).

**Usage:** Use daily in the morning. After cleansing, gently pat small amount (pea size for both eyes) around the entire eye area, blending inward from the outer corner.

**O2B Anti-aging Neck and Décolleté Cream** is **STEP 3** in your Neck and Décolleté Anti-aging regimen. (STEP 1 and 2 is using O2B Anti-aging Milk Cleanser and Toner respectively).

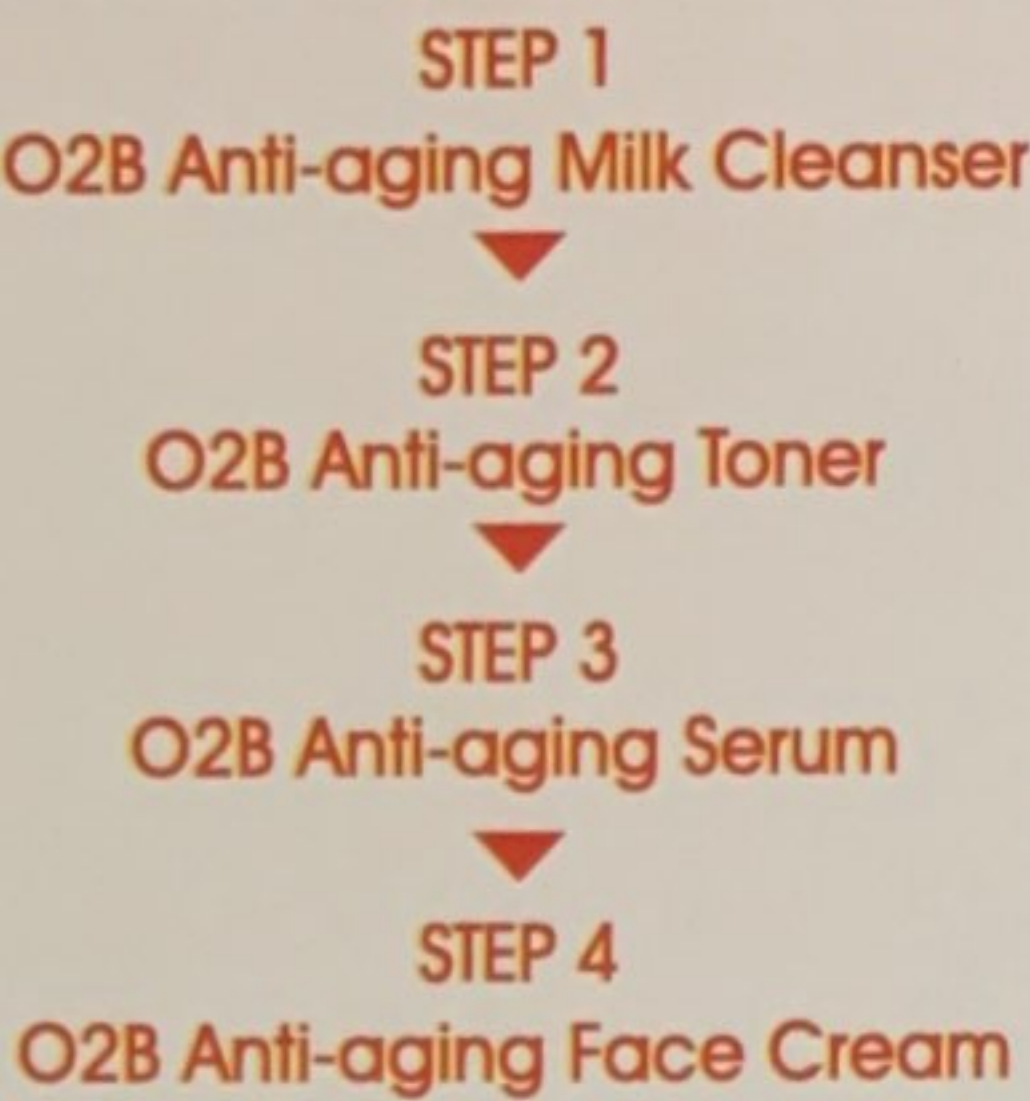

**Usage:** After cleansing and toning, apply to neck and décolleté. Massage gently with upwards motions. It can also be applied on the hands to help lighten dark spots and reduce deep lines.

## Hydrating Line

**Skin Dehydration** can affect every skin type and every age, especially those with dry skin. Dehydration often leads to thinning of the skin, promotes development of fine lines and wrinkles and in turn skin appears flushed, dry and older looking.

Skin dehydration often results from a hot, dry climate, not drinking enough water, prolonged exposure to sun, poor skin hygiene, harsh soaps etc. Cold winds and low temperatures also making skin dry and in turn contribute to aging skin. It's important to use moisturizer indoors too, as heated rooms can be very drying to skin.

### Followings are some of dehydration adverse outcomes:

- Loss of skin's elasticity
- Feeling of tightness
- Skin roughness
- Fine lines and wrinkle's development
- Premature aging

Well moisturized skin has a healthy glow, and remains soft and supple but as we age, the skin has a tendency to become drier and gradually losing its ability to maintain moisture. Maintaining well hydrated facial skin is the cornerstone of any anti-aging skin rejuvenation regimen and provides the best defense against the signs of aging. So, it is critical to adhere to a good skin care regimen. To meet your requirements **EIG Canada** presents you **O2B Hydrating products** to include in your beauty and skin care regimen.

### Are you looking for a high quality moisturizer?

EIG Canada Hydrating line is consisted of **4** unique Hydrating products under the brand name of O2B . These innovative unique products are formulated using novel patented ingredients to keep your skin well hydrated.

## Skin Brightening Line

We all know that having a radiant alabaster skin is more of a dream than reality. Actually, the most common skin problem of 40-50 years old people is a type of skin pigmentation disorder that creates age spots. These spots also referred to liver spots or sun spots. In fact, these brown, black or gray blotches on the skin's surface are caused by too much melanin production and are related to sun exposure rather than to age. Pregnancy can also makes the skin darker.

Melanin is a substance defends our skin from the sun's harmful rays and of course gives our skin pigment. The lesser the melanin, the brighter the skin will be. However, when the responsible cells for melanin production become damaged or unhealthy, melanin is produced in an irregular manner, thus the skin tone can become uneven and produce darker areas and skin blemishes. This condition named pigmentation that means coloring.

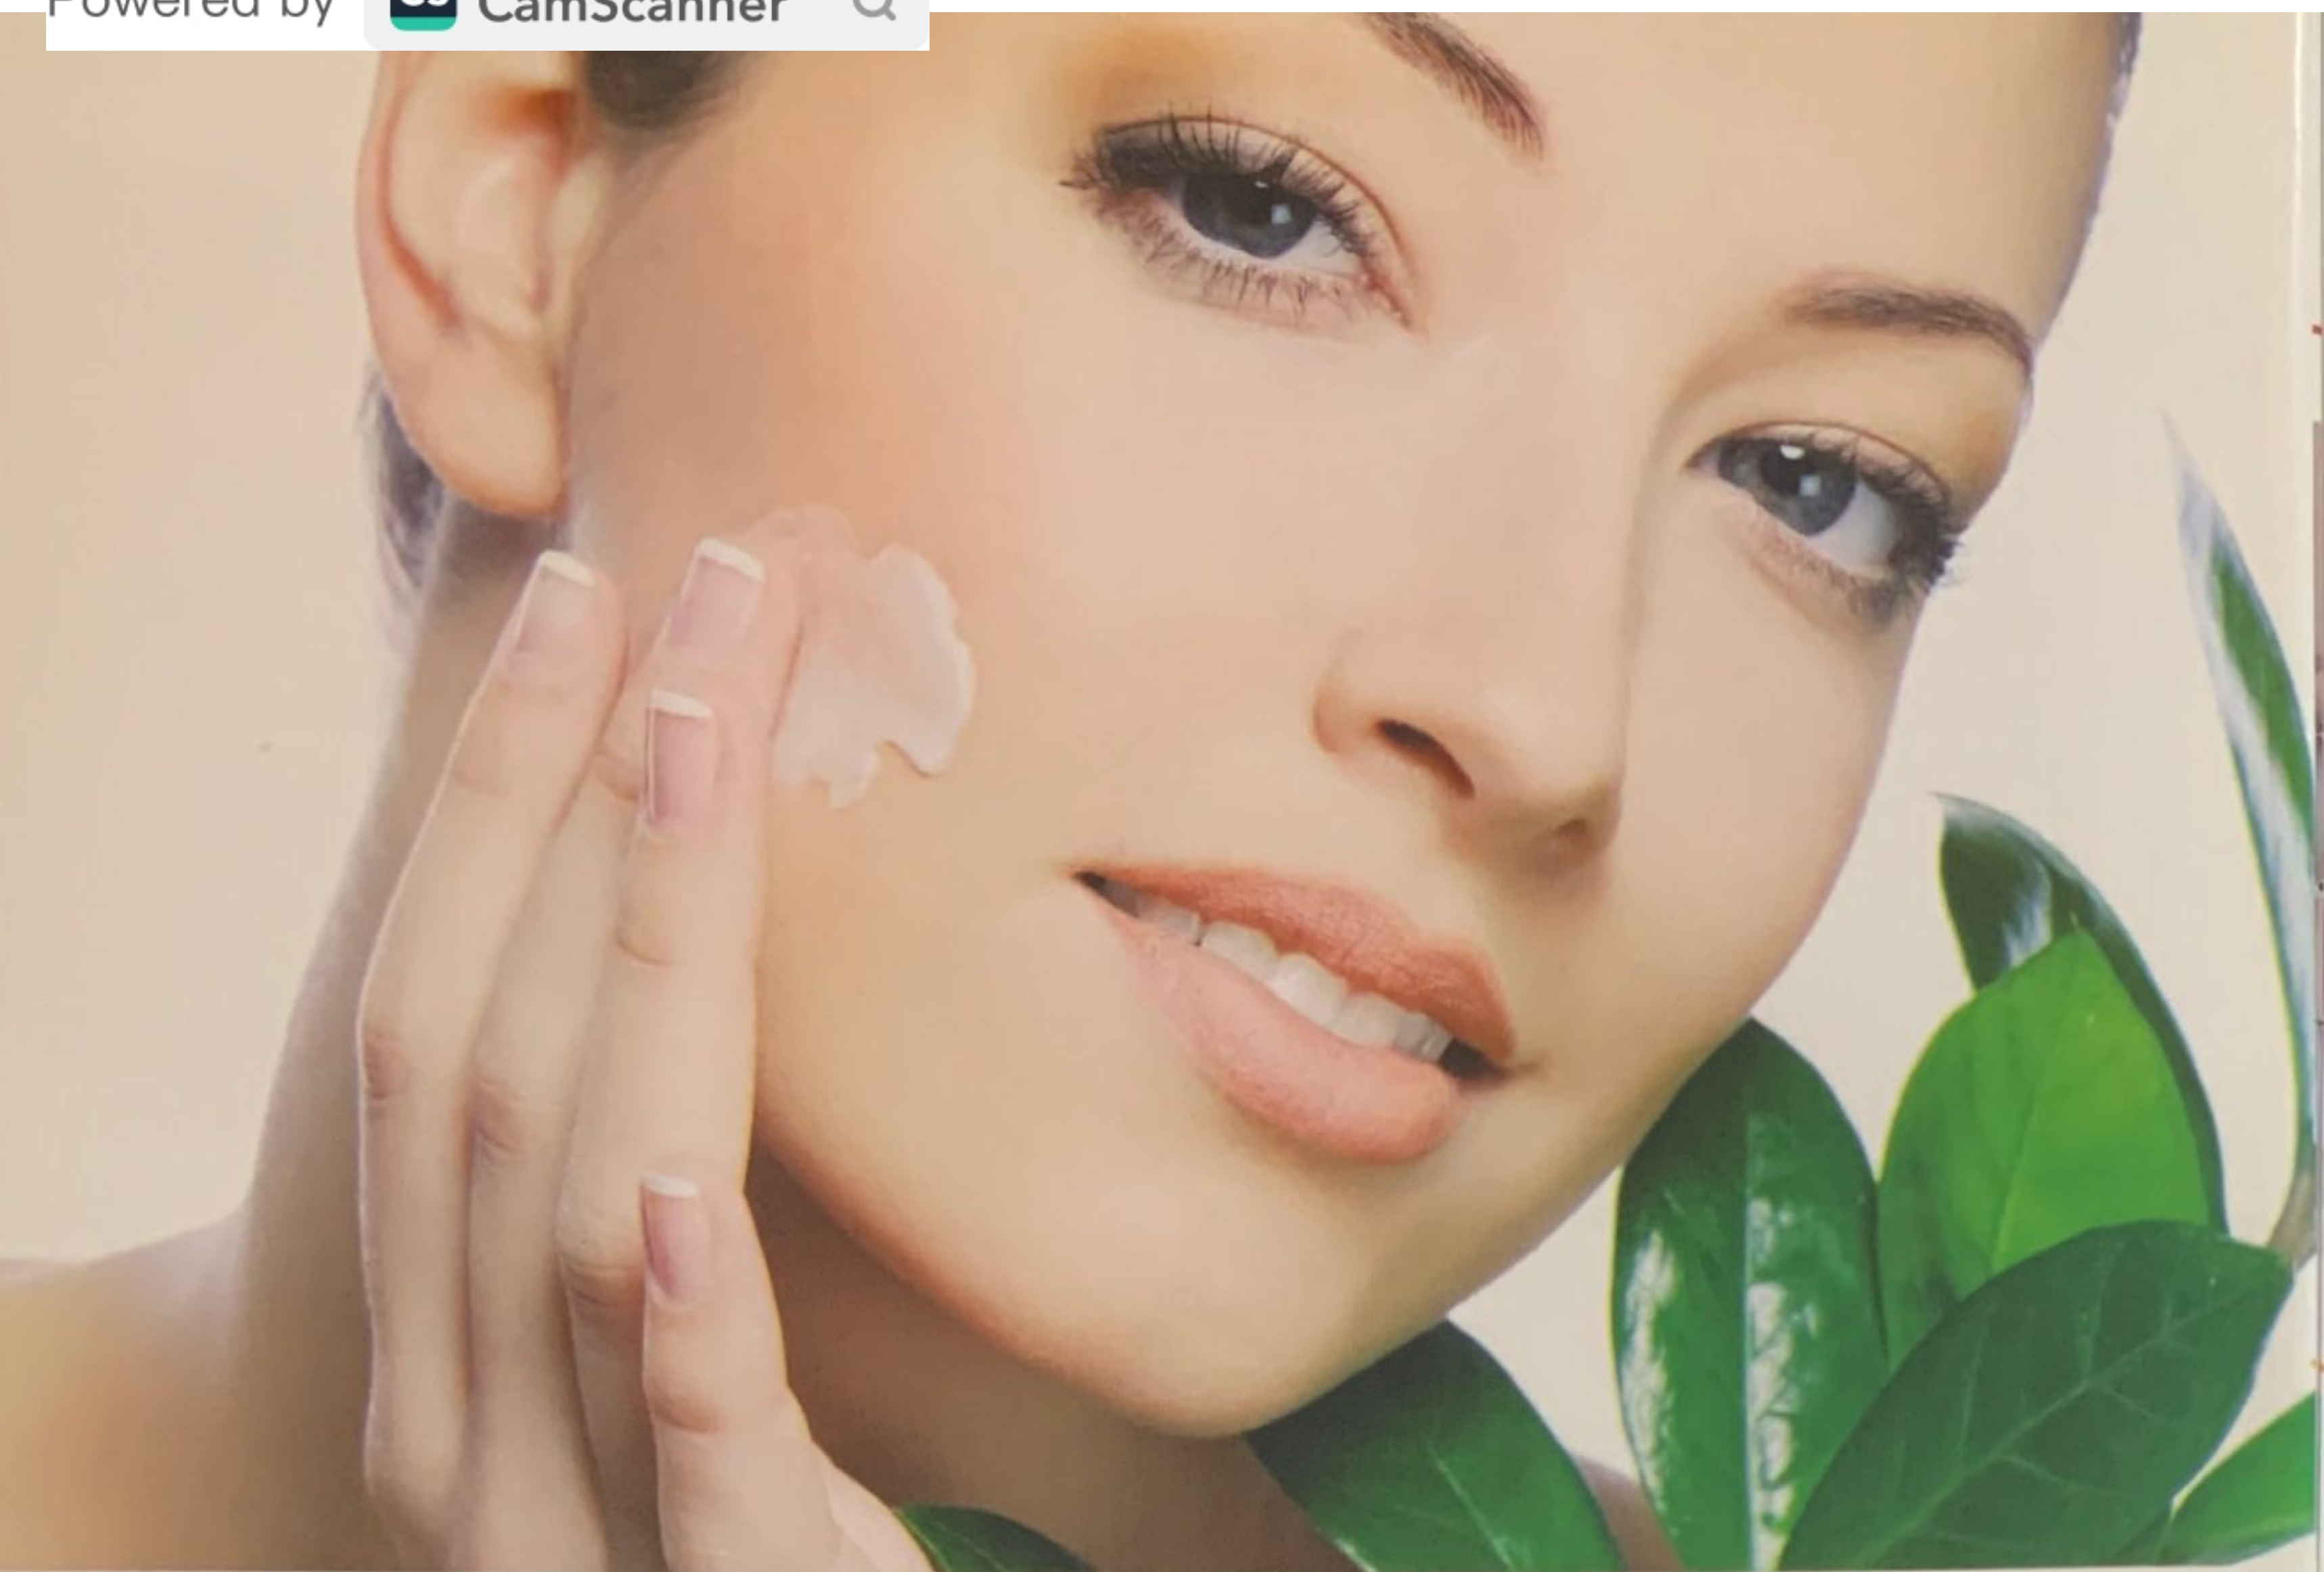

These uninvited guests are usually benign but as age spots create an unpleasant feeling, affect our beauty and younger-looking, we try to get rid of them quickly using different methods such as skin brightening products.

To achieve this goal EIG Canada presents you a complete Skin Brightening Line which is consisted of 4 skin brightener products under the brand name of O2B. These products help to reduce the appearance of age spots, lightens your skin and keeps it radiant, smooth and soft. Furthermore, our products are Hydroquinone Free.

### O2B Skin Brightening Line

- Skin Brightening Exfoliator
- Skin Brightening Serum
- Skin Brightening Face Cream
- Ultra Skin Brightening Cream

By using this complete Skin Brightening set you will take the advantage of their benefits on your skin's spots and discoloration. We are proud of our product's quality and effectiveness and wish you a healthy and beautiful skin.

### **O2B Skin Brightening Serum**

This Hydroquinone Free and antioxidant rich formula developed to correct the appearance of skin discoloration and give you a radiant, soft and smooth appearance.

### **O2B Skin Brightening Face Cream**

This Hydroquinone Free formula helps reducing the look of skin blotches by shedding old skin cells and promoting cell rejuvenation, creates a barrier against sun's harmful UV rays and giving you a radiant, soft and smooth appearance. Moreover, its Ideal for sensitive skin.

### **O2B Ultra Skin Brightening Cream**

This highly effective, Hydroquinone Free formula helps to reduce the appearance of stubborn skin blotches, stimulates the natural process of skin regeneration by accelerating the process of removing old cells from the surface of the skin, so gives you a radiant, soft and smooth appearance.

### **O2B Skin Brightening Exfoliator**

This product creates a noticeable brightening effect by gently exfoliating dead skin cells and renewing the skin complexion while creates a cooling effect that makes skin feels calm and soothed

## **O2B Skin Brightening Line Usage Guideline**

**O2B Skin Brightening Serum** is **STEP 1** In your daily skin lightening regimens.

Usage: Use twice daily, morning and night. After cleansing and toning, squeeze a small dose (1-2 pumps) onto fingertips and massage gently over face and throat. Follow with Face cream.

**O2B Skin Brightening Face Cream** is **STEP 2** in your daily skin lightening regimen  
Usage: Use twice daily, morning and night. After cleansing and toning, apply a small (pea size) amount to face and neck with light, upward strokes. Wait for cream to absorb before applying additional products.

**O2B Ultra Skin Brightening Cream** is **STEP 3** in your daily skin lightening regimen  
Usage: For maximum benefits, after thorough cleansing, apply a small quantity to the affected areas and exactly on the spots. Massage gently until fully absorbed. For best results, use at least once a day, and preferably twice, morning and evening, every day.

**O2B Skin Brightening Exfoliator** Should be included in your **weekly** skin lightening regimen  
Usage: Use two to three times per week. After cleansing, apply to dampened face and throat, massaging in circular motions for 1 to 2 minutes, avoiding the eye area. Rinse thoroughly with warm water and sponges. Not recommended for users of medically-prescribed exfoliation products.

In a weekly basis skin lightening regimen,  
**Exfoliator** is considered as **STEP 1**  
**STEP 2** is using **Serum**  
**Face cream** would be **STEP 3** and  
Finally **STEP 4** is using **Ultra Skin Brightening Cream**
